# WORKING WITH US

## Client Development

We take the time to get to know our clients and assess their individual needs so that when we provide staff they are presented based on sound knowledge and understanding of the requirements.

## Customer Value

We have a high volume of availability of staff, have a broad availability of skills and have a stringent vetting process to ensure the legwork is taken out of the provision of services and provide the true value that our service is designed for.

## Innovation

We also develop reporting and tools to assist in the recruitment and management process to ensure the staff provided adhere to the companies guidelines and expectations.

# HIGHLIGHTS

We have a lot of success not only with clients but in the development of our staff.

## Training

White Card, Job Specific and specialised training for our staff ensures we can more effectively support our clients and their requirements.

## Development

When we have successfully deployed a staff member to a site or service we still work with them to increase their skills and provide support to more effectively fulfill their roles and duties.

## Client Support

Client support is about working with clients to determine needs and requirements to specific tasks but also how to most effectively operate in their work places. We help carry the load.
